

Only English language after software update

I updated the SW of my JabloPhone GDP-04i. But afterwards the only language of the phone is English. Before I used Norwegian. Can I add it back?

You can add your **Norwegian**. Follow these steps. You will need a PC connected to the internet.

- Run JabloTool SW in your PC and connect your telephone by USB cable to the PC,
- _____
- _____
- _____
- _____
- _____
- _____

Now you will be able to select the **Norwegian** language in the phone.
Select **Menu > Settings > Phone settings > Language**
