

The State Land Office

Czech Republic, 2014

The State Land Office is a governmental institution taking care of real estate owned by the Czech Republic. It is present in every district of the country. In 2014 it was facing problems with obsolete and unreliable phone infrastructure, which was source of operational complications and enormous maintenance costs. Problems were solved by deploying JABLOCOM Phone Solution.

Initial conditions:

- Almost 900 phone lines spread over 79 locations throughout the country
- Outdated and unreliable phone infrastructure
- High maintenance costs
- High investment costs of planned new VoIP based system

Solution:

- 898 JABLOCOM Essence phones (GDP-06)

Results:

- 60% reduction in investment cost
- Zero maintenance cost
- Two employees saved
- Hassle-free deployment
